PROFILE

Software Engineer with hands-on experience in .NET, ASP.NET, and Angular, backed by a Diploma in Computer Engineering. Developed and contributed to projects including a Kerala Private Bus Tracking System, implementing REST APIs, real-time data features, and responsive user interfaces. Strong foundation in OOP and data structures, with a focus on writing clean, maintainable code.

EDUCATION

Diploma in Computer Engineering Government Polytechnic College, Muttom 2024 – 2026

Relevant coursework: Data Structures, OOP, DBMS, Web Technology

CGPA: 7.88/10

Computer Science, Technical Higher Secondary School, Muttom 2022 - 2024

Core subjects: Programming Fundamentals, Computer Systems

Percentage: 69.83%

TECHNICAL SKILLS

Languages	C#, C, Python, Java, C++, Dart
Frontend	HTML5, CSS3, JavaScript, TypeScript
Databases	PostgreSQL, MySQL
Concepts	REST API Integration, Authentication, CRUD Operations
Tools	Git, Azure DevOps, GitHub, VS Code

EXPERIENCE

Software Engineer Trainee June 2026 - present

NKORR Technologies *Technopark, Trivandrum*

- Developing and maintaining web applications using ASP.NET Core, .NET, and Angular.
- Building and integrating RESTful APIs to support application functionality and data management.
- Collaborating with cross-functional teams in an Agile environment to deliver scalable and maintainable software solutions.

PROJECTS

Kerala Private Bus Tracker *Flutter, PostgreSQL, Supabase, OpenStreetMap*

- Developed a mobile app to view private bus routes and stop information across Kerala.
- Integrated OpenStreetMap APIs for interactive route visualization and map-based navigation.
- Designed relational database schemas using PostgreSQL on Supabase for managing route and stop data.

Medicare – Clinical Drug Data Retrieval System *HTML, CSS, JavaScript, REST APIs*

- Built a medicine information platform for retrieving dosage, composition, and side-effect details.
- Consumed OpenFDA and RxNorm REST APIs and processed nested JSON responses dynamically using JavaScript.

STRENGTHS

- Strong understanding of software development fundamentals and backend-connected applications.
- Quick learner with practical exposure to API integration, databases, and web development.
- Comfortable working in collaborative development environments and adapting to new technologies.
